

Mobility Plaza®

Hitechled Srl

Hitechled is a leading company in the production of LED systems.

The company, founded in 1991 by a group of visionary entrepreneurs anticipating the positive and sustainable development of LED light sources, has organised its production over the years into three main sectors: **Modular LED systems**, **LED displays** and **LED luminaires**.

The products dedicated to **fuel stations**, for a complete and professional service, are:

- **LED SMD price displays** including all the **communication protocols**
- **LED graphic panels**, both monochrome and **RGB**
- intuitive communication systems for managing service stations
- high-performance **LED lights**, numerous retrofit models
- **LED modules** for the backlighting of the brand and products
- **luminous silicone tubes** for the forecourt canopy profiles, such as LED flexible tube light

Our headquarters and production department are located in Italy, where we can realize tailored solutions and customized products to meet your needs.
