

MaximuS Equipment

MaximuS Equipment is the manufacturer of high-quality equipment for the Petroleum Equipment Industry.

High-quality nozzles, swivels, breakaways, with viton / parker seals and metal internal parts only (no plastics).

Aluminum parts are of high-grade type and machined by state-of-the-art CNC's, assuring the finest tolerances possible.

MaximuS Fuel Nozzles feature (1) viton / parker seals, (2) UV-resistant synthetic covers, (3) metal-only internal parts (no "plastics"), (4) and double testing carried out by the QC Department before shipping (no sampling tests but individual thorough testing - twice - for every equipment).

Available to purchase worldwide from <https://petroy.com/maximus>.
