

26th World LP Gas Forum & 2013 AEGPL Congress

The 26th World LP Gas Forum - AEGPL Congress 2013 will take place from 1st to 3rd October 2013 at the Queen Elizabeth II Conference Centre in the heart of London, United Kingdom.

This event will provide attendees, exhibitors, and visitors the opportunity to reach out to a large, highly targeted regional and worldwide audience, as it brings together the best aspects of the World LP Gas Forum and the AEGPL Annual Congress. In essence, it is two annual events in one exceptional LP Gas conference and exhibition.

The exhibition is the show for key suppliers to the LP Gas Industry to showcase their cutting-edge technology, first class equipment, and professional services to the international LP Gas community.

LP Gas sectors represented:

- Equipment for production, transportation, storage and distribution
- Engineering
- Safety equipment
- Equipment for automotive fuel
- Equipment and facilities for industrial and domestic use of LP Gas

The World LP Gas Forum is the premier annual global event for the PP Gas Industry. This unique event travels the globe annually attracting key international agencies, policy makers, media and the highest level of industry leaders to explore the LP Gas business, discuss its growth potential and to forge new business relationships. The event encompasses the entire LP Gas value chain uniting LP Gas producers and traders with distributors, marketers and service providers.

The AEGPL Congress and Exhibition offers LPG companies the opportunity to present their activities and equipment connected to the production, storage, transport, distribution and installation of LPG. The event began in the 1980s and is held every year in a European city. This exceptional event provides an ideal forum for vibrant debate and discussions on LPG and its role in the European energy mix. Congress participants include large, medium and small distributors, filling plant operators, equipment manufacturers and suppliers and other representatives from the entire European LPG industry chain.
