

Expogas & Energia Puebla 2017

The key to ensuring a successful future for your service station, in a changing industry and market, is to invest in Alternative Routes, which will be the theme of EXPOGAS & ENERGÍA PUEBLA 2017.

Service stations will not only survive from gasoline – we need to prepare so that the future doesn't surprise us in the past, and so we can develop along with the trends and technological advancements of our time.

A specialized exhibition unique in the sector of fuels and in the country where gas station suppliers meet operators, businessmen, franchisers and other industry professionals, all complemented with great conferences and workshops.
