

## erpec & idac 17

**erpec, the market's leading International business forum now in its 20th year, along with the international two day industry conference idac, will bring together retail fuel executives and international equipment providers from across the globe to 'Talk Business' for three days, in the heart of Amsterdam, one of the world's most popular international destinations.**

### **More about erpec:**

erpec is a high profile gathering staged every two years of 250 international business leaders from the retail fuel marketing industries. For oil companies, major fuel retailers, project management companies, maintenance providers and international equipment suppliers, it offers its participants a dynamic time and cost saving method for meeting many of Europe's key people from the retail petroleum industry.

### **More about the conference & workshop topics at idac:**

- Fuel Retail Network Planning
- Artificial intelligence
- Retail space planning
- Smart systems to detect buying habits
- Technology to enhance environmental protection
- Cloud & big data
- Image & re imaging
- Car washing through the power of technology
