

LPG Myanmar Conference & Exhibition

Don't miss this opportunity to explore growth of the LPG market in Asia!

Join event partner LP Gas Center of Japan at the LPG Myanmar Conference & Exhibition this May. This event, which is also endorsed by the Myanmar Ministry of Electricity and Energy, as well as the Myanmar Petrochemical Enterprise, will bring key stakeholders together to discuss and grow the LPG market and its opportunities. The conference is expected to attract over 500 participants, including many newly licensed LPG companies.

Three unique facts about the LPG market in Myanmar:

- **LPG supply market to improve-** Learn the latest details on the first large, private LPG terminal scheduled for completion at the end of 2017.
- **With stability in supply forecasted, the price of LPG is expected to drop in 2018.**
- **Recent growth in the market will require major investments in new LPG equipment and technology.**

Myanmar's LPG industry is expected to grow by 20-30% in 2017. Learn the key factors behind this growth, including:

- Completion of the first privately-run LPG import terminal by Asia AVA Gas.
- Development of a licensing system which will be announced at the Conference.
- A proposed new regulatory framework to foster better industry regulation.
- Increases in the electricity tariff which encourage the switch to LPG.
- The addition of many factories and new industries in the Thilawa Special Economic Zone which are expected to increase LPG demand.
