

## Video interview with OPW's President David Crouse

**Following last week's announcement that OPW, a global leader in fluid handling solutions, has acquired UK-based Fibrelite, a leader in composite access covers and containment systems and Sweden-based Kungsörs Plast AB ("KPS"), a leader in high density polyethylene (HDPE) fusion piping systems, PetrolPlaza invited OPW President David Crouse, to go in front of the camera with Nick Needs, Publisher of our sister publication erpecnews, to talk about this extremely significant industry development.**
