

Petrol PLAZA

INCREDIBLY SIMPLE, EXTREMELY EFFICIENT GRP 700X

The new and revolutionary GRP700X is an autonomous controller retrofit allows in-pump ticket printing without any back-office PC or additional software.

FEATURES

- Reduce times and operational wear
- Do safe transactions and forget about bitchy manipulation
- Get receipts printings in-pump with detailed information of your gas station and client details such as name and license plate number
- I-Button reading for basic fleet management
- Reduce contamination; due mishandling, with its smartest and intuitive user interface
- With its touch screen interface; replace the pump preset and you will never have to change those again
- Paper use and others
- Your pump will never work stand-alone again

With the GRP700X your gas station is prepared for future automation with total control and fleet management.

THIS IS WHERE THE STATION REVOLUTION BEGINS!
