

Azerbaijan's Socar opens up new filling station in Ukraine

Socar said it has expanded its fuel station network in Ukraine with a new location in the province of Nikolaev.

The area, located in the south of Ukraine, is a major industrial center.

This is the seventh station of Socar in Nikolaev and the 50th in Ukraine operating under the Socar brand. It will retail gasoline, diesel and "liquefied gas produced at the leading oil refineries in Poland, Lithuania and Belarus".
