

KMG International to upgrade and modernize 90 Rompetrol gas stations in Romania

The budget allocated in 2014 by KMG International for investments amounted to approximately \$ 55 million and mainly focused the modernization program of 90 Rompetrol gas stations in Romania, the company said.

“For this year, the group has proposed an investment plan of over \$200 million, a large part of the amount being allocated for the scheduled general overhaul of Rompetrol Rafinare,” the statement said

Another investment is the construction and development of the fuel distribution network in Romania, as well as the continuation of rebranding for Rompetrol gas stations, the company said.

The company claims to have 7,000 employees in 12 countries.
