

## Mister Car Wash enters Colorado market with new acquisition

**Mister Car Wash has announced the acquisition of a site in Aurora, Colorado, in what is its first location in the state.**

The chain now operates in 19 states with 160 carwashes and 34 express lubes, said the company in a release.

"We're excited to join forces with the team from Auto Spa Express to begin serving customers in the Denver market at this prime location," said John Lai, president and CEO of Mister Car Wash.

Less than a month ago Mister Car Wash announced the acquisition of three car wash locations in Orlando, Florida, as they enjoy a period of expansion across the country.

"During its 10 years in business at this location [Aurora], Auto Spa Express has kept pace well with increasing demand from the growing Denver market," stated Lai. "Being situated inside the largest outdoor mall in the United States will give us an awesome opportunity to introduce the Mister Car Wash experience to Denver customers."
