

USA: Pilot Flying J expands network and service offer

Pilot Flying J continues to expand the company footprint in order to offer drivers enhanced food options, fuel and conveniences when traveling North America's highways.

Since January 2016, Pilot Flying J opened seven new locations throughout the Midwest, South, and Western parts of the United States and Canada.

"2016 is slated to be an incredibly important year for Pilot Flying J," said Ken Parent, Pilot Flying J President. "The new locations we've opened during the first quarter of 2016 demonstrate our commitment to connecting people and places with comfort, care and a smile at every stop."

The new locations include all the services Pilot Flying J wants to offer: Multiple fuelling positions and diesel lanes with high-speed pumps, elaborate food offerings, premium coffee selections, everyday shopping products, showers and driver lounges in some locations.

The combined network of more than 650 Pilot and Flying J Travel Centers across North America serves more than 1.3 million customers daily.
