

PetrolPlaza Scandinavian Special: Refuelling Equipment of Elaflex AB Sweden

Your reliable Partner for the Nordic Market

Elaflex as a leading refuelling specialist manufactures and supplies hoses, fittings, expansion joints and nozzles for over 90 years.

Since 1990, Elaflex AB Sweden has been responsible for the special demands of the Nordic market and the Baltic States. The team around sales director Niklas Nagorny offers technical support and products to customers, adapted to local needs. Safe and environmentally friendly equipment, also usable under very low temperatures.

As an example, our innovative and modular designed ZVA Slimline 2 nozzles are equipped with an integrated Diesel Drip Catcher and DRIP STOP magnet valve to provide customers with a clean, safe and environmentally friendly diesel refuelling experience.

Elaflex AB provides safety in your hands: As an engineering-based company, we have the technical resources to ensure solutions to the industry are always 'state-of-the-art'.
