

UNITI expo unveils its international conference programme

UNITI expo 2016, the leading trade fair for the fuel retailing and car wash industries in Europe, has revealed the conference program for its International Forum.

During the trade fair, which will take place from 14th to 16th of June in Stuttgart (Germany), visitors and exhibitors will be able to attend a wide range of conferences during morning and afternoon sessions in three different forums.

The International Forum's conference programme is organized by UNITI expo in cooperation with CECOD (Committee of European Manufacturers of Petroleum Measuring and Distributing Equipment) and the APEA (Association for Petroleum and Explosives Administration).

"I am pleased to confirm CECOD as an official partner of the International Forum, with a series of presentations from influential leaders in our industry sharing their experience and vision along the themes of innovation, alternatives fuels, and digitalization. I am looking forward to a strong participation and great discussions" says CECOD's Antoine Soulier

On the first day of UNITI expo 2016 the International Forum will cover the major trends around the world. North America, Latin America, Europe and Austral-Asia are some of the markets that will be discussed by the speakers.

Currents trends such as alternative fuels, fuel handling and environmental protection will be topics covered on the second day of the International Forum; while on the final day the sessions will evolve around digitalisation, big data and new business opportunities.
