

UK: APEA Live announces new location, date and nomination system

The APEA Live, a UK-based event for the fuel retailing industry, is changing date, location and voting system for its 2016 edition.

The APEA Live is a three-part event consisting of an exhibition, a conference programme and an awards dinner. This year it will be taking place on November 24, 2016, in Milton Keynes (UK).

Apart from changing dates and location, the APEA Live has also renewed its nominations process to make it simpler and more mobile-ready.

As well as the Awards Dinner sponsored by Petrocom, the event encompasses an Exhibition and Conference sponsored by LCM Environmental, seeing the industry come together all under one roof, to showcase their products and services.
