

Nouria Energy acquires F.L. Roberts c-stores and car washes

Nouria Energy Corporation has finalized the acquisition of the F.L. Roberts & Company, Inc. retail and car wash business for undisclosed amount.

F. L. Roberts's 26 convenience store locations with fuel including two truck stops, 22 Golden Nozzle® car wash locations, and diner will be added to Nouria's network of about 225 locations spanning from Hartford, Connecticut to Waterville, Maine, according to a company release.

The transaction also expands Nouria's car wash business to 49 locations and further increases its presence into Western Massachusetts and Connecticut markets.

"The nearly century-old Roberts family business has established tremendous convenience store and car wash brands and created a family culture with generations of loyal employees. At this time, I want to welcome them to the Nouria organization" said Tony El-Nemr, President and CEO of Nouria Energy Corporation.

He added, "The acquisition enhances our business profile with added revenue diversification and profit streams backed by strong c-store operations and an industry best car wash network."

Nouria also operates a transport logistics business and supplies its company operated locations and wholesale customers with Shell, Irving, Gulf, and Sunoco branded fuels, as well as private and unbranded brands throughout New England.

F.L. Roberts operates businesses, which include 28 convenience stores/gas stations and truck re-fueling facilities and 22 car washes locations, in Connecticut and Massachusetts.
