Bulletin Mepsan June 2017

1. Great Interest in Europe for Mepsan brands!

Mepsan exhibited at the XXIV International Fair Oil Station 2017 Poland exhibition held between 17-19 May.

Mepsan met with prominent representatives in Europe's oil and energy sectors at the exhibition where many important companies are located. Within the changing global competition conditions, negotiations were held to increase brand awareness of Mepsan products in Poland and the Middle East European market.

Throughout the fair, the entire product range, projects, services, and innovations to be available in the future has been presented. Mepsan European Regional Representative, working to strengthen the company's position in the region, expressed that Mepsan R&D's innovative focus on intelligent filling arms, one of the innovative products they focus on, is pleased with and is a great solution for stations. Thanks to the Mepsan smart filling elbow, one of the biggest problems of the stations is being prevented effectively.

By 2018 with innovative products, Mepsan aims to increase its export activities towards European countries, which have a significant share in total exports,.

2. Mepsan Signs Petroleum and LPG Dispenser Purchase Contract with Aytemiz!

With 11 points of supply in all regions of Turkey, Mersin, İzmit, Kırıkkale and Trabzon, with its storage and filling terminals, Aytemiz, which is one of the prestigious energy companies with experience, signed a fuel and LPG dispenser purchase contract with Mepsan.

Mepsan will be a part of the service offered at Aytemiz stations, which is one of the most respected brands of the Turkish energy sector, with more than 500 franchisees. The dispensers developed by Mepsan R&D Center are designed by using advanced software, hardware and equipment technologies to provide trouble-free service even in the toughest working conditions. The products, which have passed numerous tests and are approved by international reputable test institutes, ensure that the functional requirements of many stations across Turkey meet in the same design language. Mepsan, who will provide fuel and LPG dispensers to Aytemiz stations with the signed contract, will reflect the innovative point of view to Aytemiz stations.

3. Mepsan stands Shoulder to Shoulder with PÜİS

Branch meetings of Petroleum Products Employers' Union (PÜİS) General Assembly, which has 23 Branches in 23 Provinces, 81 Headships and 919 Provincial Representatives, was held in 14 different provinces of Turkey.

Members of the trade union, fuel oil dealers, PÜİS Headquarters and Branch Managers and Mepsan officials participated in the General Assembly meetings where the problems of the fuel sector and franchisees were widely discussed. Mepsan, who sponsored all the branch meetings of PÜİS, which collects 9,000 registered fuel bays under the roof, showed that the franchisees will always be beside fuel oil dealers to avoid giving their every support to solve their problems. The problems and solutions of the fuel stations were discussed during the PUIS Branch General Assemblies held between April 22 and May 23, 2017 in Istanbul, Tekirdag, Izmit, Samsun, Trabzon, Batman, Konya, Antalya, Kırıkkale, Ankara, Mersin, Iskenderun, İzmir and Erzurum. Meetings that brought together the sense of unity and solidarity in the sector, the distributor company, the dealers and the equipment manufacturer and the whole family gathered were successfully completed by proposing solutions to fuel oil dealers.

4. Mepsan Stamped to ISTRADE 2017 !

Mepsan welcomed the entire energy industry as the sponsor of Gala Dinner of the 2nd Energy Trade and Supply Summit ISTRADE 2017 held in Istanbul Shangri-La Bosphorus Hotel between 25-26th May.

ISTRADE 2017, supported by Turkey's leading Non-Governmental Organizations such as TOBB, ELDER, ETD, PETFORM, EÜD and GAZBİR, has been holding the energy sector very closely for two days and assessing many important issues in the energy sector with participation of all parties, Solution recommendation shared.

5. Mepsan Presents Innovative Products at Erpec Idac 17 Meetings!

Mepsan participated in the exhibition and innovation of the Erpec Idac 17 efficiency show in Amsterdam between 31 May and 2 June.

The two-day international industry conference, Idac, as well as Erpec meetings, the leading international trade forum of the market that has completed the 20th anniversary, took place in Amsterdam.

Mepsan came together with retail fuel managers and international equipment suppliers from around the world, especially in Europe, at its booth. The new product of the eye-to-eye innovation-focused approach to your activity was the smart filling elbow.

One of the innovative fuel station solutions that retail engineers will earn profits is the smart filling elbow, which is an important product because it prevents the cross-filling of wrong fuel.

Mepsan, which presented its different products with its innovative approach in the event for three days, got full marks from the sector representatives.

6. Mepsan welcomed Sector Representatives in Traditional Ramadan dinner.

Organized every year in Istanbul and becoming traditional Mepsan iftar organization this year, energy sector representatives, regional guests and suppliers with intense participation Sahan Ataşehir-Vega Restaurant took place.

When Mepsan Chairman Mr. M.Levent Bulgurcu and General Manager Mr. Osman Ersoy were presented, about 300 people attended the traditional iftar dinner and hosted the energy industry.

In addition to the sector representatives, the MLB Group companies Mepsan, MPT, Traco, employees and guests attended the iftar event. Mepsan's business partners, many senior executives of the fuel distribution sector and Mepsan employees participated in the iftar dinner. Mepsan Chairman M. Levent Bulgurcu thanked everybody for their interest.
