

BOSS - British Oil Security Syndicate

BOSS is here to help you reduce your losses from Forecourt Crime.

We are a membership organisation with one goal – to take away the stress and hassle of dealing with Forecourt Crime. Our perseverance and tenacity to recoup losses and track down repeated offenders is recognised by the fuel retailers across the UK and we can help you too.

Payment Watch offers a co-ordinated system that gives motorists the chance to settle up on site or over the phone within seven days before specialist debt recovery agents take over the pursuit of money.

The BOSS Electronic Reporting System is an online portal enabling retailers to report NMoP (No Means of Payment) incidents promptly and accurately. This system makes it quick and easy to submit a report online following an incident.

The BOSS Forecourt Watch is a crime reduction partnership initiative designed to meet the requirements of both police and fuel retailers within a police force area.
