

# **ACAPMA - Australasian Convenience and Petroleum Marketers Association**

## **The Association**

ACAPMA is the national peak body representing the interests of the petroleum distribution and petroleum retail industry. The Association is first and foremost an employer organisation that is formally recognised under Australian law as the industrial advocate for fuel marketing and fuel distribution businesses in Australia.

First established in 1976 as the National Council of Petroleum Agents and Distributors Organisation, the Association changed its name to the Australasian Convenience and Petroleum Marketers Association (ACAPMA) in 2007, to better reflect the changed nature of member businesses.

ACAPMA is a Registered Organisation under Fair Work and serves the downstream petroleum industry via the provision of employment services, industry advocacy to government, and networking opportunities to ensure the competitive viability of its members' businesses.

## **Our Members**

ACAPMA's members comprise 95% of Australia's fuel distribution and storage businesses who, in turn, supply fuel to approximately 4,800 of the 6,400 retail fuel outlets operating in Australia.

The scope of ACAPMA's membership extends from 'refinery gate' through to the forecourt of Australia's national network of service stations and petrol convenience outlets – including fuel wholesale, fuel distributors, fuel retailers, petroleum equipment suppliers and petroleum service providers.

The profile of ACAPMA's membership ranges from small to medium sized Australian owned

enterprises, to large multinational corporations.
