

**American
Iron and Steel
Institute**

AISI - American Iron and Steel Institute

AISI serves as the voice of the North American steel industry in the public policy arena and advances the case for steel in the marketplace as the preferred material of choice. AISI also plays a lead role in the development and application of new steels and steelmaking technology.

AISI is comprised of 21 member companies, including integrated and electric furnace steelmakers, and approximately 120 associate members who are suppliers to or customers of the steel industry.

A Clear Vision For The Future

- Advocate for public policies that support a competitive environment for domestic manufacturing
- Provide high-quality, value-added products to a wide array of customers
- Lead the world in innovation and technology in the production of steel
- Produce steel in a safe and environmentally friendly manner
- Increase the market for North American Steel in both traditional and innovative applications.
