KAW KIEHL KG

Professional product solutions for perfect cleaning, maintenance and hygiene

KIEHL is one of the market leaders in the following business sectors:

- Cleaning and maintenance
- Products for professional service
- Providers in the cleaning industry
- Textile and kitchen hygiene
- Automatic vehicle washing

More than 45 years we have experience in research, development, production and service for chemical products in all types of automatic and manual vehicle wash, especially in conjunction with water reclaim systems.

Research and development have the highest priority at KIEHL. The success and the position of the company in the market can only be assured in the future through the permanent search for new and even more effective solution concepts. The innovative KIEHL products and systems solutions are produced with the most up-to-date production technology in the Odelzhausen factory located between Augsburg and Munich.

KIEHL supplies its products to various oil companies (ARAL/BP, TOTAL, Shell, Eni, AVIA, SOCAR, Esso, Q8, Q1, Jet, A1, Doppler, Stieglechner, etc.) and car manufacturers (BMW, Volkswagen-Group, Mercedes, etc.) in several countries and has its own international branch offices, subsidiaries or sales partners to guarantee the availability of KIEHL products.
