

## Bahwan CyberTek

**FuelTrans is an Integrated Logistics and Transportation solutions suite for oil marketing companies. It provides a 360-degree view of oil distribution logistics and real-time visibility of fuel stations. It helps achieve complete control over operations using digital and data-driven levers.**

FuelTrans offers two products –

- **FuelTrans Station Manager**, a cloud-based Fuel Station Management and Automation Solution that provides real-time data visibility into sales, wet stock inventory, equipment monitoring and various quality parameters to seamlessly manage all fuel station operations in an optimized way
- **FuelTrans Terminal Manager**, a secondary distribution automation solution that automates the entire order-to-cash cycle offering a 360-degree view of the secondary fuel supply chain for retail and commercial business segments

FuelTrans has been at the forefront of developing solutions and capabilities in Retail Automation and Secondary Distribution Planning & Logistics over the last decade. The company has so far automated 5000+ fuel stations and is used by 7000+ users across the globe. It has a growing customer base of industry leaders and niche players such as OLA Energy, TOTAL, Shell Oman, Oman Oil, Al Maha, Hormuz, Nayara Energy, Indian Oil, City Oil, Sohar Aluminum and Oman Cement Company, to name a few.

FuelTrans is a group company of Bahwan CyberTek Group, a global provider of digital transformation solutions across 20 countries in the areas of IoT, predictive analytics, integrated logistics and transportation, secondary distribution management for oil marketing, fuel retail and logistics verticals. Established in 1999, Bahwan CyberTek has delivered solutions in 20 countries across North America, the Middle East, Far East, Africa and Asia, driving innovation through outcome-based business models and proven and powerful IP solutions. BCT has over 3400+ employees and is a trusted partner for over 1000+ customers, including Fortune 500 companies. Know more here:
