

Integer Emissions Summit & AdBlue® Forum India 2019

Over 150 emission control and AdBlue® market senior executives from India and beyond will gather to build their network of connections and discuss approaches to India's most stringent legislation yet.

This unmissable event is built on over a decade of experience covering vehicle emissions and has been curated by liaising with senior government officials and emissions experts across the supply chain. Topics will expand on heavy duty vehicles, passenger cars, non-road mobile machinery, AdBlue® and E-mobility. Developments, changes and new technology and procedures will be discussed in depth as well as important growth and supply chain opportunities in the Indian AdBlue® market. This conference will ensure you are prepared for India's latest automotive industry changes.

Sectors the conference covered:

- Heavy-duty vehicles
- Passenger cars and two/three wheel vehicles
- Non-road mobile machinery
- AdBlue®
- E-mobility
- Aftertreatment technology
- Emissions monitoring

Early booking discount available

To register your place at the conference using the early booking discount, simply email us (use the form on the right) and a member of the team will be in touch.
