

INAPA 2020 Jakarta

You are welcome to join the upcoming **ASEAN's Largest & Most Influential Trade Show for Automotive Industry INAPA 2020 Jakarta**, taking place from 18 - 20 March 2020, JIExpo-Jakarta. The expo will return to present more powerful and international platform as the ASEAN's unparalleled one-stop for the AUTOMOTIVE platform.

Reflecting a big success in the INAPA 2019 and the attractive automotive market in Indonesia. The 12th edition of INAPA 2020 is ready to expand bigger scale and expect to attract over 1,200 exhibiting companies and attend from 25,000 trade visitors in 3 days. The expo continues to offer a grand opportunity to network with Regional and International's automotive aftermarket and OEM buyers, importers, distributors; and lead your business to greater success and gain market access to the up.

Electric Vehicle Section at INAPA 2020

Indonesia government has announced its target to produce more electric vehicles (EV). Indonesia sets an ambitious target on the adoption of electric vehicles with 2.1 million e-motorcycles and 400,000 e-cars (20% of all locally manufactured cars) expected to take the road by 2025. At present the government is preparing fiscal infrastructure and facilities to support the effort to enter the electric motor vehicle industry.

Entering the 12th year, INAPA 2020 will present a new premier section for electric vehicle namely Electric Vehicle Indonesia 2020 (EV Indonesia 2020), which will be held together with INABIKE 2020, Tyre & Rubber Indonesia 2020, Lube Indonesia 2020 and IIBT 2020. EV Indonesia 2020 provides an opportunity to source the latest EV manufacturing solutions including battery, electrical powertrains, components, IT systems, material and equipment.

WHY Indonesia Has Huge Potential for Automotive Aftermarket in ASIA

The automotive industry of Indonesia has become an important pillar of the country's manufacturing sector as many of the world's well-known car corporations have (re)opened manufacturing plants or expanded production capacity in Southeast Asia's largest economy. Moreover, Indonesia experienced a remarkable transition as it evolved from being a merely export oriented car production center (especially for the Southeast Asian region) into a major (domestic) car sales market due to rising per capita GDP.

With a largest population of automotive and high economy development. the Indonesia's Automotive OEM and Aftermarket will be the most prospect market in ASEAN.
