

7th Annual International LNG Congress Russia - postponed

LNG Congress Russia is an international platform which traditionally gathers LNG industry leaders from all over the globe. The event welcomes over 300 operators of large-, mid-, and small-scale LNG projects (Rosneft, Gazprom LNG Saint Petersburg, Gazprom Transgaz Yekaterinburg, Gazprom Gas Motor Fuel, Sibir-Energo, Dalgazresurs, TopGaz, and others), government, and engineering leaders of the LNG industry.

Among the speakers and panellists 2019:

- Stuart Bradford, Senior Deal Lead, Shell
- Sander Stegenga, Shell Technical Director for LNG Projects, Russia, Shell
- Sergey Gustov, General Director, Gazprom LNG Saint Petersburg
- Roman Zdanovich, General Director, Pechora LNG
- Vladimir Bondartsov, General Director, YUZHNIIGIPROGAZ
- Oleg Osipovich, General Director, Achimgaz
- Denis Snitsky, Executive Director, Sibir-Energo
- Oleg Baranov, General Director, Dalgazresurs
- Roman Shultiev, General Director, Kryomashgas
- Mark Bogoslov, Chairman of the Board of Directors, TopGaz, and a lot more other industry experts.

Programme Highlights:

- 2 strategic days: large, mid, and small-scale LNG projects
- Debates of industry leaders: Russia in the global LNG market – export potential
- Important! Large-scale projects. News from operators
- Case studies on applying technologies for design and construction of LNG plants
- LNG shipment market: commercial trends and novelties
- Discussion for CTOs! Cutting construction time and cost
- Mid and small-scale LNG projects in Russia. Who is interested in developing private small-scale LNG projects?
- Key drivers of LNG application as fuel. How do government and operators facilitate the use of

LNG as fuel?
