

Global Energy Show 2022

North America's Leading Energy Event

The Global Energy Show is the largest B2B exhibition and conference engaging with industry buyers and sellers, stakeholders and partners, CEOs and young professionals together to share knowledge and fuel innovation in the ever-changing energy landscape.

Hosted on **June 7-9, 2022** the Global Energy Show will be inclusive to all energy systems, including features on the exhibition floor and conference in oil sands, hydrogen, wind, solar, petrochemicals, gas and LNG, electrification and nuclear. As no single source of energy can meet the increased global energy demand, the Global Energy Show is where Canada demonstrates its vision and leadership by bringing the right people together to meet global challenges with real-world solutions.

Together at the Global Energy Show in 2022, energy professionals will come together to lead the path of meeting energy demand, discussing energy transition, showcasing technology and innovation, and discovering the role of all energy sources in the greater energy system.

Venue

Stampede Park

June 7, 2022 - June 9, 2022

Calgary, Canada
