

Petrol PLAZA

Global Petroleum Show 2020

The 51st running of North America's Leading Energy Event, the Global Petroleum Show (GPS) highlighted new technologies, innovation and optimism for a strong Canadian energy sector. Over 53,000 members of government, CEOs, decision makers and visitors came together from around the globe to send one message: Alberta is open for business. Canada is open for business.

The industry is changing. Over the years GPS has transformed into a bigger and better platform for energy executives to host meetings, make company announcements and engage in dialogue that reflects the state of the industry. This year's Show featured new additions including the Global Meetings Program, Pipeline Alley, the Passport Program in the Outdoor Zone and two separate conferences that each brought an incredible lineup of speakers.

Venue

Stampede Park

 June 9, 2020 - June 11, 2020

 Calgary, Canada
