

# Petrol PLAZA

## PetroForum UK 2020

The past few years of the UK independent forecourt sector have been dominated by big picture ideas – electric vehicles, last mile delivery, the importance of a food-to-go offering – but little has been discussed about the practical implementation happening in these areas right here, right now.

With the way we travel changing at breakneck speed, the time has come for the industry to focus not on blue sky thinking but real-life business application that can maintain successful industry growth.

Therefore, following the hugely successful 2018 event, PetroForum UK comes to Portugal for two days of discussing: OK – but how? This will be a two day event focused on providing solutions and case studies rather than all-talk, no-action.

The OpenRoom team are continually on the lookout for new innovations and perspectives to include – meaning this year’s event will play host to a unique collective of industry heavyweights and start-ups. Importantly, our unique one-to-one meeting format will lay at the heart of the agenda – connecting independent forecourt groups with top-tier suppliers to the industry.

### Venue

---

**Tivoli Marina Vilamoura**

Marina de Vilamoura, 8125-901 Quarteira

 June 15, 2020 - June 16, 2020

 Vilamoura, Portugal
