

European Electric Vehicle Batteries Summit 2022

Advancing Battery Performance While Driving Down Production Costs: Unleashing The Power of Electric Mobility

Following the success of the 2nd and 3rd event editions, ACI's European Electric Vehicle Batteries Summit will be taking place in Rotterdam, the Netherlands on 8th - 9th June 2022.

The discussion this year will be focused around the key issues currently facing the electric vehicle batteries market, such as scaling up the industry over the coming years and the challenges this presents, the roadblocks along the supply chain, infrastructure and the technology needed to implement the solutions.

The two day event will bring together industry leaders from major car manufacturers, off high road vehicle manufacturers & battery producers sharing their knowledge and experience with the latest technology developments.

Also joining the summit will be policy makers from regulatory bodies, NGO's, market & energy consultants, analysts and providers of key solutions such as components, materials and charging infrastructure. Don't miss out on this excellent networking opportunity.
