

Gas & LNG Markets, Contracts & Pricing 2020 - Port of Spain

A comprehensive all-in-one course addressing all key elements for successful gas & LNG business strategies

Due to the complex geopolitical nature of gas/LNG sourcing and long term nature of gas transactions between buyers and sellers, it is commercially prudent for those involved in this process to know the global gas & LNG supply & markets condition, available methodologies for price determination, contract structure and negotiation techniques. Any misjudgement in any of these areas could result in wrong sourcing decisions, significant adverse financial consequences and legal liabilities.

This course has, therefore, been designed to enable the professionals in the gas sector and gas advisory services to make right sourcing decision, construct gas/LNG contracts and negotiate from a position of strength and knowledge in order to gain a competitive edge in the process.
