European E-Fuels 2021

The European E-Fuels Conference

Date: 3th November 2021 - 4th November 2021 Location: Hamburg - Germany

Following the success of The European E-Fuels 2019 which brought 130+ senior level industry professionals to Munich, Germany, we are delighted to be hosting the 2021 edition of the conference in Hamburg.

ACI's European E-Fuels Conference will be taking place in Hamburg, Germany on the 3rd & 4th of November 2021. The two day event will bring together key industry stakeholders from the renewables, fuels, energy and oil & gas industry: including car manufacturers, e-fuel producers, technology providers, consultants and policy advisors.

Senior-level speakers will present on technical aspects of the e-fuel market and present the latest challenges and opportunities that the industry brings. They will discuss requested topics by industry experts, touching on aspects such as e-fuels in the automotive and aviation industry, e-fuel production costs challenges and the latest technological advances amongst others.

More Details on Sessions & Topics, please View Agenda:

Exclusive Site Visit to Audi e-gas plant

During the Tuesday afternoon prior to the conference, on the 2nd of November, a limited number of conference delegates will receive the unique opportunity to visit the [Audi e-gas plant in Werlte, Germany](#).

This plant produces synthetic methane from water and CO₂. The amount of CO₂ emitted by the car is precisely the amount bound during the production of the fuel. Audi uses biomethane from residual materials such as straw and green waste, in addition to the quantities of synthetic methane, to ensure Audi e-gas can be supplied comprehensively.

There is no extra charge to join a site visit, although places are limited and allocated to conference delegates on a first come first served basis. Therefore we should strongly suggest to book your place early to avoid disappointment.

Key Topics 2021 Include

- Overcoming the Barriers of Development & Growth
- Advances in E-Fuels as a Positive Disruptor in the Automotive and Trucking Transportation Sector
- Updates on Policy & Regulations Framing the European Industry
- Exploring the Commercialized and Small Scale Technologies Currently on the Market
- The Need for Sustainable Electricity Logistics in the Creation of E-Fuels
- The Importance of CO₂ Sourcing and Usage in the Production Process
- The Role of E-Fuels in the Future of Aviation
- Triggering E-Fuel Production Investments
- The Role of E-Fuels in Maritime

Confirmed Speakers Include:

- Karl Hauptmeier, Managing Director, **Norsk e-Fuel AS**
- Werner Willems, *Technical Specialist – Sustainable Fuels*, **Ford Motor Co.**
- Sveta Ukkonen, Head of Marine Fuels & Services, **Neste Corporation**
- Dolf Gielen, *Director, IRENA Innovation and Technology Center*, **Irena**
- Gunnar Holen, *CEO*, **Nordic Blue Crude AS**
- Oskar Meijerink, *Business Development Manager*, **SkyNRG**
- Edwin van de Brug, *Regional Manager*, **Van Oord Offshore Wind**
- Stefan Siegemund, *Director – Sustainable Mobility and Alternative Energy Agency*, **German Energy Agency**
- Prof. Christian Kuchen, CEO, **German Petrol Industry Association**
- Dr. Christian Scherhag, Head of International Affairs, **Hamburg Aviation**
- Ron van Manen, *Head of Strategic Development*, **Clean Sky**
- Sten Wranik, *In House Counsel*, **BSE Engineering Leipzig GmbH**
- Joss Braker, Programme Manager Mobility and Fuel Strategy, **NOW GmbH**
- Dr. David Bothe, Associate Director, **Frontier Economics**
- Claes Frederiksson, CEO & Founder, **Liquid Wind**
- Emma Skov Christiansen, Lead – Shipping Emissions and Ocean Agenda, **World Economic Forum**

The standard delegate rate is £1,795 (ex.Vat) which includes attendance of the two day conference, all speakers' presentations, lunches and networking opportunities as well as documentation from the event.
