

6th China LNG & Gas Exhibition & Summit

The China LNG & Gas Exhibition & Summit has established itself over 5 years as the platform to share industry insights and make the right connections to grow your business successfully. Over 200 sector experts from across the gas value chain have spoken at the event, taking the pulse of the current state of the industry and setting the tone for the year ahead.

The Summit will discuss the topics including:

- China's natural gas regulations and policies update
- China's LNG Strategy in a global context of supply & demand
- New market entrants and their impact on the China's LNG and gas market
- Advancing small-scale LNG in China
- New developments on LNG & gas infrastructure & distribution
- Securing reliable LNG supply for China
