

Petrol PLAZA

European Hydrogen & P2X Conference 2021

**European Conference, Hydrogen & P2X: fuel cells, road transport and energy production
16-17th June 2021, Copenhagen, Denmark**

Through implementation of EU Green Deal Europe strives to become the first climate-neutral continent by the 2050. Climate change and environmental degradation are an existential threat to all of us. The need to decarbonize the power generation, mobility and heat energy markets in the face of the rapidly evolving climate reality leads the green transition.

The answer to this need is hydrogen which, thanks to the recent incredible advances, becomes a booming and rapidly growing part of industry. The second option is using P2X technology which helps creating an efficient clean energy system aiming to reduce CO2 levels.

After great interest in topic of hydrogen and P2X during our September events Future of Biofuels and Biogas PowerON, we will host Hydrogen & P2X 2020 Conference in Copenhagen on 16-17 June.

This event is set to bring industry stakeholders, unique content, workshops and networking. Join us for latest market news, excellent keynote speakers and technical insights.

Our confirmed speakers include:

Søren Bjerregaard Pedersen, Hydrogen Valley

Christoph von dem Bussche, GASCADE Gastransport

Tobias Block, VDA Automotive Industry assoc

Lennart van der Burg, TNO Voltachem

Robert Paulsteiner, VERBUND

Morten Stryg, Dansk Energi

Dominik Eichbaum, City of Siegen Camel Makhloufi, ENGIE Karl Hauptmeier, Norsk e-Fuel

Dr. Johannes F. Kirchhoff, KIRCHHOFF Ecotec

Lotte Holmberg Ramussen, Centrica Energy Trading

Jean-Marc Leroy, GIE

Betina Jorgensen, TOTAL

Fei Chen, Haldor Topsoe

And many others

Key topics:

- European and world markets outlook
- Market developments in global perspective
- Policy and regulatory framework
- Financing and investing strategies
- Hydrogen and P2X economics
- Technological advancements
- Storage improvements and safety issues
- Symbiosis of P2X and other industry sectors
- Fuel Cells
- Actual case studies
- Heavy Duty Transport applications
- P2X and hydrogen for greener transport
- Impact of Covid-19 on industry
- Green hydrogen in the gas grid
- Commercialization - growth challenges, funding, partnerships

Who should attend?

European Hydrogen & P2X Conference will bring together top level experts from gas producers, chemical and mobility industries representatives, power companies, business analytics, government officials and regulators, storage companies, service providers, transportation companies, renewable energy consultancies and others.

Why you should attend?

During this 2-day event reach in presentations from industry end-users and running projects case studies you will gain a comprehensive overview of the sector. You can hear experts focusing on new regulations, changing market situation and more. Get a possibility to network and exchange ideas with industry leaders.

Venue

To be confirmed

 June 16, 2021 - June 17, 2021

 Copenhagen, Denmark
