

LPG Week Dubai 2021

After last year's postponement of LPG Week and following the success of e-LPG Week, we have the pleasure to announce that this year's event under the theme 'Energising Tomorrow' will take place in Dubai at the end of the year. LPG Week travels the globe annually bringing together CEO's of major LPG companies, government ministers and representatives of major intergovernmental organisations and media, to explore the LPG business, discuss its growth potential and to forge new business relationships. LPG Week/2021 Dubai is the opportunity to meet again with all types of industry stakeholders.

LPG Week is WLPGA's flagship event that was launched in Amsterdam in 2019 during the 32nd World LPG Forum and 2019 European Congress. It includes the full LPG value chain under an umbrella of upstream summits; meetings; workshops on trading and shipping; training; a start-up village; business and networking opportunities; government regulatory seminars; and more. LPG Week will provide greater value for a wider range of participants than ever before. Whatever your stake in the LPG industry, whether you are a producer, a shipper, a trader, a distributor, a manufacturer, a government representative or even a consumer, LPG Week is for you.

LPG Week incorporates the successful annual World LPG Forum and its major global exhibition at its core, as well as the Global Technology Conference (GTC), the LPG for Development Summit (LPG4DEV). LPG Week also hosts the World LPG Challenge '21 and Autogas Day. Are you interested in new technology or the prospects for bioLPG? Are you a trader or an LPG shipper looking to maintain or forge new relationships? Are you responsible for LPG for your national government or are you simply a citizen concerned by our energy future? LPG Week has it for you.

In addition, the exclusive social events and networking & business opportunities make LPG Week a unique event organised by the World LPG Association.

LPG Sectors represented during LPG Week are:

- Production
- Distribution and marketing companies,
- Storage, handling & distribution equipment
- Innovation and digitalisation solutions,
- Engineering & project management,
- Autogas equipment,
- Appliances,
- Media and publications,
- Consultancy
