

Oil&nonOil 2021 - Energy, fuels and mobility services

Oil&nonOil, this year being held for the 16th time, continues to consolidate its role as Italy's only event for all players in the liquid and gas fuel distribution industry, from depot to vehicle tank.

It is an event that, over the years, has mirrored the technological and organisational transformation of this sector, and served as an opportunity to reflect upon, and weigh up, regulatory changes and commercial and marketing strategies. More than anything, Oil&nonOil, year after year, has provided snapshots of the gradual growth of the network of independent fuel distribution operators.

NEW in 2021

A new full-scale reference hub for the future of smart roads will make its debut in 2021. The contemporary scheduling in synergy of the next editions of Asphaltica and Oil&nonOil, both landmarks in their respective sectors, are on the calendar for the first time in Verona with the aim of creating new synergies and expanding and completing the product offering.

Venue

Veronafiore Exhibition Centre

Viale del Lavoro, 8, Hall 12, «Re Teodorico» Entrance
