

ERTC Annual Meeting (European Refining Technology Conference)

As part of the international portfolio of World Refining Association (WRA) events hosted annually in Europe, Africa and the Americas, ERTC is now in its 22nd year and is the leading refining and petrochemical conference in the region.

ERTC gathers over 560 industry professionals from refinery operators, petrochemical plants, technology providers, regulators and government officials to discuss these topics, share market insights, project updates, best practices and case studies as well as the latest in process and technology advances. ERTC is THE platform that technology providers use to present their latest & new innovations and technologies – be the first to hear the best available technologies for your business needs!
