## Future Energy Asia Exhibition & Conference (FEA) 2018

Future Energy Asia is an annual exhibition and conference that will be held in Bangkok, Thailand from the 12-14th December 2018 that connects thousands of energy professionals committed to accelerating Asia's energy transformation.

Held in partnership with the Thailand Ministry of Energy, Future Energy Asia brings together the complete energy value chain – governments and policy makers; oil and gas companies; midstream gas and LNG companies; renewable energy developers; power and utility companies, and technology providers – to shape the strategies and technologies needed for Asia to meet its future energy ambitions for its people and businesses.

Future Energy Asia will enhance the dialogue for the global energy transition ensuring a secure, affordable and low-carbon energy mix across Asia.
