## Retail's Best Forecourt & Convenience Partners

Now in its fifth year, Retail's Best Forecourt & Convenience Partners is a unique and exclusive business networking event and the only event of its kind that's designed 'by retailers, for retailers'.

Its founder, Moiz Vas - an independent retailer and forecourt operator - single-handedly brings together hundreds of the top operators and decision makers in motor fuel and convenience retailing to tackle hot topics of conversation in the industry in a relaxed and non-competitive environment.

Retail's Best takes place in the evening, away from the day-to-day business, and includes breakout-sessions, a drinks reception, signature dining experience, spectacular entertainment and a 'smart exhibition', with plenty of time for networking. Our expertise is in creating the perfect environment to enable effortless networking opportunities, build new connections, spend quality time with decision makers, share business inspiration and grow businesses.

The supplier partners for the next instalment include: Bestway; Greenergy (a branded wholesaler of fuel to Esso dealerships); Henderson Technology and Philip Morris International.
