

24th World Energy Congress

Energy for Prosperity

The 24th World Energy Congress will be a global leadership forum that defines the strategy for a collaborative, sustainable and innovative energy future, that enables societal, commercial and community prosperity. Innovation in energy will be a central topic that will run throughout the Congress and exhibition, perfectly aligning with the UAE's 2050 Energy Strategy - which centres on innovation in clean energy and adjacent sectors such as transportation, technology and water.

Audience & Focus

The 24th World Energy Congress aims to bring together international energy stakeholders, including governments, private and state corporations, academia and media. Over four days the Congress will assess the state of the energy sector as a whole, including:

1. Innovation in the energy sector;
2. Generation technologies;
3. The role of energy regulators;
4. The nexus between the energy industry and dependent sectors (e.g. transportation, water, agriculture)

Did you know?

Since its inception in 1924, the United Arab Emirates is the first country in the Middle East to host the Congress.
