

## Offshore Upstream Development in Russia and CIS 2018

**15<sup>th</sup> International Conference “Offshore Upstream Development in Russia and CIS 2018”** has a reputation of one of the leading events in the Russian oil and gas industry. The caliber of the attendees and the sponsors, coupled with excellent networking opportunities and a high-level program have earned **“Offshore Upstream Development in Russia and CIS 2018”** the status it deserves.

The Conference is annually supported by **Gazprom**.

Among the sponsors and partners of the event in 2018 are **Oilteam** and **Vega Training Center** companies, as well as **National Association of Oil and Gas Service, Russian Gas Society, Murmanskshelf** and **Sozvezdie Associations**.

More than 120 delegates - top managers and heads of relevant departments - annually take part in the event. Traditionally the largest offshore operating companies are the regular participants of the conference.

In 2018 such companies as Gazprom, Gazprom neft, Rusgeology, Atomflot, Gazprom VNIIGAZ, Atomflot, Zvezdochka, Sevmorneftegeofizika, Reflex Marine Ltd., Vega Training Center, Oilteam and many others, as well as Russian Gas Society, Rosprirodnadzor, Administration of Krasnodar Region, leading ministries and agencies regulating the development of the industry.

**Among the key conference topics in 2018 will be:**

- State policy on offshore subsoil use
- Offshore projects at the South, Far East and Arctic seas: potential of oil and gas fields, companies' experience, problems and successful solutions
- Economic and legislative aspects of the Russian offshore projects realization. How to achieve economic efficiency and reduce the risks
- Infrastructure provision of the offshore oil and gas projects
- Sanctions for the Russian oil and gas industry – summing up the first results of import substitution
- And many others.

## Offshore Upstream Development in Russia and CIS is:

- The leading event of the field has being supported by Gazprom for 15 years
- The unique source of updated information devoted to the offshore projects in Russia and CIS
- Open access to innovative technologies and successful experience of the top companies operating in the offshore deposits
- More than 120 annual participants - representatives of the state authorities and top-management of the oilfield companies
- Gazprom, LUKOIL, Rosneft - the biggest Russian oilfield companies working on the offshore are the regular participants of the event.
