

XXV International Fair PETROL STATION 2018

Over 25 years the Polish Chamber of Liquid Fuels has been taking care of Polish fuel market and helps it to thrive. Dynamic development, new products and solutions for the whole branch need platform for their presentation. For that purpose the Chamber organizes the International Trade Fair PETROL STATION that has established itself permanently as one of the crucial branch event in the region. The PETROL STATION Fair is the platform for exchanging information, know-how, business networking and showcasing products, services and innovations for following sectors: fuels, petrochemical, energy, petrol stations (petrol, diesel, LPG, CNG, LNG), car washes, service centers, tank trucks, logistic, furnishings for convenience shops and bars.

It's a great opportunity for your company to:

- Reinforce your position on the market
- Establish new business contacts in Poland and neighbour countries
- Showcase your products and novelties to the industry and customers
- Research Polish market in direct conversations
- Strengthen existed business relations with your partners in Central Eastern Europe
- Reach decisive persons from wide range of related industries
- Build your company image as earnest, strong and reliable business partner

Scope of interest:

- Petrol Stations - construction, design, modernization, infrastructure and equipment
- Car washes - self-service, automated, tunnel, high-pressure, steam cleaners
- Bar & restaurant

- Convenience store
- Services for petrol stations and car washes – furnishings, advertisement, outer signage
- Logistic and transport
- Tank trucks
- Liquid fuels
- IT & software
