

LPG Philippines Summit 2018

LPG Philippines Summit 2018 is a continuation of our efforts since 2011 to provide a valuable platform to the LPG industry and government in the Philippines to meet, discuss, debate and address key challenges within the LPG industry both in the Philippines and abroad. Latest developments in the business will be discussed. It is also an opportunity to develop new business contacts as well as explore new avenues in the Philippines LPG industry.

The focus this year is to look and explore

- Growing LPG demand
- Opportunities for the LPG business in the Philippines
- Innovation in LPG storage and distribution
- The need for regional development
- New government regulations
- LPG power generation

A special session will be dedicated to safety as the cornerstone of the LPG business, raising awareness and adopting new technologies within the field.
