

Integer Emissions Summit & ARLA 32 Forum Brazil 2019

By 2020, Brazil aims to have introduced its most stringent emission standard yet, PROCONVE P-8, a Euro VI-equivalent which will have a significant impact on the region's automotive and ARLA 32 market.

Integer Emissions Summit & ARLA 32 Forum Brazil 2019 will address the impact of PROCONVE P-8 on the vehicle and ARLA 32 markets, with a focus on advanced emissions technology and strategy. Join TOTAL, Agrale, Mercedes-Benz, Raízen, Uralchem, MTU Friedrichshafen and many more in Sao Paulo on 12 -13 February, for an unmissable networking experience and to discover the latest technology and developments.
