

WEX Europe Services partners with Porsche

WEX Europe Services adds to UK partnership network to offer Porsche Club drivers fuel discounts.

Leading fuel card provider, WEX Europe Services, has announced a new agreement with Porsche Club, adding to its growing partnership network across the UK.

The collaboration means members receive an Esso Card discount on Esso Synergy fuels purchased at any nationwide site.

With 22,000 members across the UK, Porsche Club is the second largest car club in the world, representing more than 55,000 vehicles. The new partnership offers significant value-added benefits for members.

“Having recently conducted a survey amongst our members, we found that many were keen for us to develop a partnership with a fuel card provider,” Chris Seaward – General Manager at Porsche Club GB.

Since the acquisition of the Esso Card portfolio, drivers have access to more than 12,000 fuel stations throughout Europe due to WEX.
