

CyberFuels opens second branded site in Florida

The location carries all of the CyberFuels gasoline and diesel products, which are powered by the CyberFuels Inc. Dynamo additives.

EncounterCare Solutions, Inc. announced that its subsidiary CyberFuels, Inc. has opened a second CyberFuels branded gas station in Florida. The new station is located off I-95 in Flagler Beach, Florida.

Ronald Mills, President of CyberFuels, stated that the new location has been completely rebranded with the CyberFuels Inc.'s corporate branding. Mr. Mills stated that he expects the new station will increase quarterly revenue significantly. CyberFuels expects its first quarter results to reflect a significant increase in top line revenue.

CyberFuels expects to increase its Florida locations this quarter with the addition of two more branded locations in central Florida, as well as in New York state and Canada during the remaining two quarters of the current year.
