

CNG filling station opens in India

Indian Oil Corporation launched last week the second CNG filling station in Mallapur.

Indian Oil Corporation Executive Director Ramana Rao inaugurated the CNG filling station in Mallapur (Hyderabad, State of Telangana) on last Wednesday, reports The Hans India.

"Using CNG gas vehicles we can prevent pollution and contribute to protection of environment," Rao said.

20 more CNG fuelling centers will open in the city in the near future, Bhagyanagar Gas MD Prasad announced in the Mallapur station's opening.

Indian Oil corporation believes that CNG can be of help in reducing environmental pollution.
