

## First Phoenix SUPER LPG franchise store opens in the Philippines

**The Philippine energy company is opening a franchise network of stores selling LPG.**

More and more households will now be able to switch to a *safer* cooking experience as Phoenix SUPER LPG opens its first-ever franchise store in Antipolo City, Rizal.

Offering pick-up and delivery of 11kg Phoenix SUPER LPG tanks for households and businesses, the SUPER hub also carries Phoenix lubricant products and Posible bills payment service to accommodate other needs of its clients and provide more opportunity for the store owners to grow their business further.

“We have always believed in the quality of products and services of Phoenix Petroleum as we have been loyal customers to the brand for years now. That’s why when an opportunity to be their partner and open a franchise business with them arose, we eagerly grabbed it,” start-up entrepreneur and Phoenix SUPER LPG franchise store owner Jennes Gampon said.

Phoenix Petroleum has over 500 gas stations nationwide.
