

Recognising innovation in transforming the world's oil and gas industry

The 9th edition of the Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC) Awards, hosted by the Abu Dhabi National Oil Company (ADNOC), is now open for submissions.

In this fourth industrial age it is technology, innovation, environmental leadership and talented workforces that are shaping the companies of the future.

Oil and gas is set to play a pivotal role in driving technology forward, and at this year's ADIPEC Awards emphasis is placed on digitalisation, research, transformation, diversity, youth and social contribution, paving the way towards a brighter tomorrow for our industry.

Hosting the ADIPEC Awards is one of the world's leading energy producers, ADNOC, a company exploring new, agile and flexible ways to build its people, technology, environmental leadership and partnerships, while enhancing the role of the United Arab Emirates as a global energy provider.

Factors which will have a prominent influence on the eventual decisions of the distinguished panel of jury members include industry impact, sustainability, innovation and value creation. Jury members have been carefully selected according to their expertise and knowledge, and include senior representatives from Baker Hughes, a GE Company, BP UAE, CEPESA Middle East, ENI Spa, Mubadala Petroleum, Shell, Total and Weatherford.

Chairperson of the awards is Fatema Al Nuaimi, Acting CEO of ADNOC LNG, who says: "At a time when the industry is looking towards an extremely exciting future and preparing for Oil & Gas 4.0, the awards will recognise excellence across all its sectors and reward those who are paving the way towards a successful and sustainable future."

Ms Al Nuaimi, continues: "we call upon our partners across the globe to submit their achievements in projects and partnerships which are at the helm of technical and digital breakthroughs, as well as to

nominate the next generation of oil and gas technical professionals, who will spearhead the ongoing transformation of the industry.

These awards are recognising the successes of those companies and individuals who are responding in the most innovative and creative manner to the global economic and technological trends. Their contribution is pivotal to the development of our industry and to addressing the continuous growth of the global energy demand. “

Christopher Hudson, President of the Energy Division, dmg events, organisers of ADIPEC, says: “With ADNOC as the host and ADIPEC as the platform for the programme, the awards are at the heart of the worldwide oil and gas community. With its audience of government ministers, international and national oil companies, CEOs and other top global industry influencers, the ADIPEC Awards provide the global oil and gas community the perfect opportunity to engage, inspire and influence the workforce of the future.”

Entries can be submitted until Monday 29th July for the following categories:

- Breakthrough Technological Project of the Year
- Breakthrough Research of the Year
- Digital Transformation Project of the Year
- Social Contribution and Local Content Project of the Year
- Oil and Gas Inclusion and Diversity Company of the Year
- Young ADIPEC Technical Professional of the Year

A shortlist of entries will be announced in October and winners will be revealed on the first day of ADIPEC 2019, Monday 11th November, St. Regis Saadiyat Island, Abu Dhabi.
