

## ENOC Group opens new service station in UAE

**The Al Faseel service station will be ENOC's ninth station in Fujairah since the first station in the emirate in 1989.**

ENOC Group has opened a new service station in Fujairah in line with its plans to expand its network to 191 stations in the UAE by end-2020.

The station caters to a large community in Al Faseel that spans an area from Hilton Fujairah hotel in the south, running inland along the length of Fujairah Beach to the Fujairah City suburb in the west all the way to Al Shara Hospital at the other end.

The new 4,800 m<sup>2</sup> service station is equipped with six dispensers with a multimedia option and a fuel system designed to cater to a maximum flow rate as per the National Fire Protection Association (NFPA) safety standards. To factor in the waiting time inside the station, dispensers are built with retractable hoses to enable refuelling cars from both sides.

The station is also equipped with the Vapour Recovery Systems (VRS) to prevent and control

emissions, full LED lights installed at the site to reduce energy consumption by 50 per cent and a VRF technology system for the air conditioning (AC) system, which saves 35 per cent energy as compared to conventional package AC systems.

The growing Al Faseel community also stands to benefit from other provisions at the site including Popeyes, Paavo's Pizza, a drive-thru Starbucks and a 24-hour ZOOM convenience store where you can pay utility and credit card bills, top up for Salik and telecoms, and pay for FlyDubai bookings.
