

Romania's Rompetrol Downstream opens new fuel station

The company operated 939 fuel points by the end of July, 70 more than a year earlier.

Rompetrol Downstream, the retail division of the KMG International Group in Romania, announced it has opened a new fuel station under the Rompetrol Partner franchise in Patrauti commune, in Suceava county, following a \$1.5 million (1.35 million euro) investment.

The station was built and is operated by local logistics and distribution company Euro Vasilas.

The station has a LPG supply point, an automated carwash for cars and trucks, a store and restaurant area and will employ 30 people.

Apart from its service station network, Rompetrol Downstream also operates six fuel deposits in Arad, Craiova, Mogosoaia, Simleul Silvaniei, Vatra Dornei and Zarnesti as well as three bottling stations for liquefied petroleum gas in Bacau, Arad and Pantelimon.
